

DNI Declassifies Intelligence Community Documents Regarding Collection Under Section 702 of the Foreign Intelligence Surveillance Act (FISA)

In June, President Obama requested that Director of National Intelligence James R. Clapper declassify and make public as much information as possible about certain sensitive NSA programs while being mindful of the need to protect sensitive classified intelligence and national security.

Consistent with this directive and in the interest of increased transparency, DNI Clapper has today authorized the declassification and public release of a number of documents pertaining to the Intelligence Community's collection under Section 702 of the Foreign Intelligence Surveillance Act (FISA). DNI Clapper has determined that the release of these documents is in the public interest.

These documents and other unclassified information related to foreign intelligence surveillance activities are available on a new Intelligence Community website established at the direction of the President. The new www.icontherecord.tumblr.com is designed to provide immediate, ongoing and direct access to factual information related to the lawful foreign surveillance activities carried out by the U.S. Intelligence Community.

The Administration is undertaking a careful and thorough review of whether and to what extent additional information or documents pertaining to this program may be declassified, consistent with the protection of national security. *IC on the Record* provides a single online location to access new information as it is made available from across the Intelligence Community.

Shawn Turner
Director of Public Affairs
Office of the Director of National Intelligence
